

Curtin University

Join the challenge to explore an Indigenous Future in the creative industries

The Indigenous Futures Challenge is a practical, hands-on approach to building new skills, discovering strengths, identifying passions, thinking creatively, while exploring what an Indigenous Future looks like in the creative industries.

You will learn through activities and sessions centered in the creative industries. Together with experienced educators, facilitators and mentors guiding you throughout, you'll develop your work into a portfolio you are proud of and that can be built upon for possible university entry in the future.

This is also an opportunity to connect with students from other schools, build networks and be inspired by each other, in a supportive environment.
